

EXTERN ID Decommissioning - User Transition Guide

Project Objective

The Government of Alberta is transitioning applications away from the legacy EXTERN authentication platform to **Alberta.ca Account for Organizations (AAO)**.

Note: An **EXTERN account** is the eCollision/eCruiser username and password that external users currently use to sign in to the applications.

This initiative provides a more secure, modern, and centralized authentication experience for external users accessing eCollision and eCruiser while aligning with the Government of Alberta's identity and access management strategy.

What is Alberta.ca Account for Organizations (AAO)?

Alberta.ca Account for Organizations (AAO) provides a secure and modern authentication platform used by organizations and their employees to access Government of Alberta online services.

Users authenticate using either:

- their **work email credentials** (for organizations using the **Microsoft or Google sign-in option**), or
- their **Alberta.ca Account credentials** (for organizations using the **Email or Username sign-in option**).

Once authenticated, users are provided access to Government of Alberta applications through a centralized identity platform.

Refer to **APPENDIX A: Organization Sign-In Method** to determine the appropriate sign-in method for your organization.

What is a Verified Organization?

A **Verified Organization** is an organization that has been pre-established within Alberta.ca Account and associated with one or more organizational email domains.

When a user signs in using their work email address and the appropriate sign-in option (Microsoft, Google, or Email/Username), Alberta.ca Account automatically associates their account with the appropriate Verified Organization based on their organization's email domain and identity provider.

Verified Organizations simplify onboarding by:

- Automatically associating users with the correct organization.
- Eliminating the need to search for an organization.
- Eliminating the need to submit organization join requests.
- Eliminating the need for organization administrators to invite staff users.

- Allowing organizations to continue managing their own employee accounts and passwords through their existing identity provider.

Pre-Transition Activities

Prior to go-live, users are encouraged to perform a one-time sign-in to [Alberta.ca Account](#) to verify they can successfully sign in and that their account is associated with the appropriate Verified Organization [VO.X].

Organizations using Microsoft or Google sign-in option

- Sign in using your work email address and work password by selecting the appropriate sign-in option (Microsoft or Google).

Organizations using the Email or Username sign-in option

- If you have not already done so, create an Alberta.ca Account using your work email address.
- Establish your Alberta.ca Account password.
- Sign in using your work email address via the Email or Username option and your Alberta.ca Account password.

If you are unsure which sign-in option applies to your organization, refer to **APPENDIX A: Organization Sign-In Method**.

If you are unable to sign in, or your Alberta.ca Account is not associated with the appropriate Verified Organization [VO.X], please contact eCollision@gov.ab.ca prior to the transition date.

Post-Transition - Existing Users - First Login After Go-Live

If you already have access to eCollision and/or eCruiser, follow the steps below after the transition:

1. Browse to eCollision Application (https://extranet.inftra.gov.ab.ca/eCollision_prd/)
2. Sign in to **Alberta.ca Account** using the appropriate sign-in method for your organization.
 - If prompted to select an organization during sign-in, select the organization displaying the **Verified Organization [VO.X]** badge.
 - If you are unsure which sign-in option applies to your organization, refer to **APPENDIX A: Organization Sign-In Method**.
3. Select "Yes" when prompted whether you have an existing eCollision/eCruiser EXTERN account.

The screenshot shows a login form with the following elements:

- Text: "Are you an existing application user?"
- Text: "If **yes**, select **'Yes'** to log in with your EXTERN credentials. This one-time step will link your EXTERN account to your Alberta.ca account.
- Text: "If **no**, select **'No'** to continue as a new user.
- Radio buttons: ☒ Yes ☐ No
- Text: "Username"
- Text input field containing "John.doe"
- Text: "Password"
- Text input field with masked characters "*****"
- Blue button: "Sign In"
- Link: "Forgot Password?"

4. Enter your existing EXTERN credentials (your existing eCollision/eCruiser username and password).
5. Complete the one-time account mapping process.
6. Once the account mapping is successful, your Alberta.ca Account will be linked to your existing eCollision/eCruiser account and you will be signed in to the application.

Important

The account mapping process only needs to be completed once. After your Alberta.ca Account has been mapped, future logins will use Alberta.ca Account only.

If you have access to both eCollision and eCruiser, mapping your account in either application will allow access to both applications.

Post-Transition - New Users

If you do not currently have access to eCollision or eCruiser:

1. Browse to eCollision Application (https://extranet.inftra.gov.ab.ca/eCollision_prd/)
2. Sign in to **Alberta.ca Account** using the appropriate sign-in method for your organization.
 - If prompted to select an organization during sign-in, select the organization displaying the **Verified Organization [VO.X]** badge.
 - If you are unsure which sign-in option applies to your organization, refer to **APPENDIX A: Organization Sign-In Method**.
3. Select "No" when prompted whether you have an existing eCollision/eCruiser account.
4. Complete the eCollision Access registration form.

You currently don't have access to this application. Please submit the form below to request access.

New User Registration

First Name:

Last Name:

Work E-mail:

* Phone:

Company Name:

* Reg/Badge #:

* Agency incl. District:

CPS, EPS, RCMP or Other Alberta Enforcement Agencies

Examples:

- CPS District 8 Team F
- EPS Northeast Division
- RCMP K1507 Whitecourt Municipal and K1495 Whitecourt Rural
- Other Alberta Enforcement Agencies Tsuut'ina Nation Police Service

* Role(s) Required:

Field Officer, Reviewing Officer, (or combination of the two) for the Other Alberta Enforcement Agencies (can have a combination of three roles) see below of what the meaning of the access roles.

Role Definitions:

- Field Officer role:** Can create and submit collision records only.
- Reviewing Officer role:** Can approve collision records submitted by Field Officers but cannot create records. Combination of both roles required if the user needs both abilities.
- Forward To District Handler 1:** Used when a collision occurs within your jurisdiction but is reported outside. This role receives email notifications when records are forwarded to their agency. (Typically assigned to Reviewing Officers.)

5. Submit the registration request.
6. Await approval and access instructions.

Frequently Asked Questions

1. When is the transition taking place?

The transition to Alberta.ca Account is currently planned for Mid-August 2026

Users will be notified in advance once the final go-live date has been confirmed.

2. Do I need to create an Alberta.ca Account?

It depends on your organization's sign-in method.

- **Microsoft / Google organizations**
 - No. Simply sign in using your work email address and the appropriate sign-in option.
- **Organizations using the Email or Username sign-in option**
 - **If you do not already have an Alberta.ca Account**, create one using your work email address by selecting **Create account** on the Alberta.ca Account sign-in page or by visiting: <https://account.alberta.ca/ui/sign-in/create-new-business-account>
 - Once your account has been created, establish your Alberta.ca Account password and sign in using the **Email or Username** option.

Refer to **Appendix A – Organization Sign-In Method** to determine the sign-in method for your organization.

3. Do I need to request access to my Verified Organization?

No.

When you sign in using your work email address and the appropriate sign-in option, Alberta.ca Account automatically associates your account with your organization's Verified Organization based on your email domain.

4. I am already an eCollision/eCruiser user. Do I need to register again?

No.

During your first login after the transition, sign in using Alberta.ca Account, select "Yes" when prompted whether you have an existing account, and then enter your existing eCollision/eCruiser EXTERN username and password to complete the one-time account mapping process.

What happens to my existing access and permissions?

Your existing access, roles and permissions will remain unchanged after your account has been mapped.

5. What happens to my existing collision records and application data?

No application data will be impacted by the transition.

Existing collision records, user permissions, and application data will remain unchanged.

6. What if I forget my existing eCollision/eCruiser EXTERN ID password?

You can reset your EXTERN password using the existing EXTERN password reset process.

<https://extern.wln.gov.ab.ca/help/>

7. When is the deadline for mapping my Alberta.ca Account to my existing eCollision/eCruiser EXTERN account?

Users will have three months after the transition to complete the one-time account mapping process.

After that period, users may need to contact eCollision@gov.ab.ca for assistance.

8. I accidentally selected "No" when prompted whether I have an existing eCollision/eCruiser EXTERN account. What should I do?

Do not submit the access registration request.

Please contact eCollision@gov.ab.ca so your account can be reset and the mapping process can be retried.

9. Do I need to map my Alberta.ca Account in both eCollision and eCruiser?

No.

The one-time mapping process only needs to be completed in one application.

10. Who do I contact if I experience issues?

Contact eCollision@gov.ab.ca

APPENDIX A: Organization Sign-In Method

Sign in to Alberta.ca Account

Email or username

[Find my account.](#)

Continue

☐ Remember this sign in option [i](#)

or

 Sign in with Google

 Sign in with Microsoft

[i](#) Don't have an account? [Create account](#) 

Note: If your organization's email domain is not listed below, please contact eCollision@gov.ab.ca. Your organization may need to be onboarded to Alberta.ca Account and configured as a Verified Organization before users can access eCollision/eCruiser.

How to use this table

Use the **Provider** column below to determine how you should sign in to Alberta.ca Account.

Provider	Sign-in Method
Microsoft	Select Sign in with Microsoft and authenticate using your work email address and work password.
Google	Select Sign in with Google and authenticate using your work email address and work password.
Other	If you have not already done so, create an Alberta.ca Account using your work email address and establish an Alberta.ca Account password. Then sign in using the Email or Username option.
